

St Patrick's CE School
Governors Impact Statement

The key issues facing the governing body

- a) Budget monitoring and keeping in line with budget constraints
- b) Addressing data and statistics relating to school performance and looking at means to improve in conjunction with the headteacher and staff
- c) Continue working as a team to ensure the key issues and improvements from Ofsted are prioritised to improve the quality of provision and further develop the outcomes of children across school
- d) Dealing with health and safety issues including matters relating to safeguarding within the school
- e) Involvement with grounds improvement projects
- f) Assisting the headteacher with the appointment of staff
- g) Holding the school to account and generally assisting and supporting the leadership and management of the school
- h) Involvement with the impact that the building of over 100 new houses in Endmoor will have on the school
- i) We are a Church of England school, with strong links to St Patrick's Church where we celebrate major Christian festivals, in which the children lead the worship. We are also part of the family of church schools in the Carlisle Diocese.
- j) It is a privilege to work together as a team who are all wanting the best opportunities within the school by having the children at the heart of all the decisions that are made and to ensure that the good name of St Patrick's CE School continues in high accolade within the local community
